Ethyl Cyanoacrylate	7085-85-0	85 – 95

*Note: Any value shown as a range is due to batch-to-batch variation

4. FIRST AID MEASURES

- Eye Contact:** Do not try to open the eye. Flush eyes immediately with large amounts of cool water for 15 minutes. Seek medical attention immediately. Cry.
- Skin Contact:** This product bonds skin immediately. Do not pull. Peel slowly using acetone or CND Remove (use lukewarm water only for product removal, if skin bonding has occurred near the eyes). If irritation develops and product is on the skin rinse thoroughly with lukewarm water, followed by a thorough washing of affected area with soap and water. Seek medical attention if redness, swelling, itching, or burning occurs.
- Inhalation:** Remove to fresh air at once. Under extreme conditions, if breathing stops, administer artificial respiration and seek medical attention.
- Ingestion:** Do not induce vomiting! If conscious, give several glasses of water or milk IMMEDIATELY. Never give anything by mouth to an unconscious person. Contact ChemTrec at +1(703)527-3887 or the nearest Poison Control Center or local emergency number. Provide an estimate of the time at which the material was ingested and the amount of the substance that was swallowed.
- Notes to Physician:** Treat symptomatically.
- Most important symptoms/effects, both acute and delayed:** No acute or delayed symptoms or effects occur when handling this product.

5. FIRE AND IGNITION INFORMATION

- Burn Rate:** Not determined.
- Extinguishing Media:** Use extinguishing measures that are appropriate to local circumstances and the surrounding environment. Water spray, alcohol-resistant foam, dry chemical or carbon dioxide.
- Special Fire Fighting Procedures:** When involved in a fire, this product will ignite readily and decompose to produce oxides of carbon and hydrogen cyanide.

First responders should wear eye protection. Structural fire fighters must wear full protective equipment and MSHA/NIOSH-approved self-contained breathing apparatus. Use a water spray or fog to reduce or direct vapors. Water may not be effective in actually extinguishing a fire involving this product. If possible, prevent runoff water from entering storm drains, bodies of water, or other environmentally sensitive areas. If necessary, rinse contaminated equipment with soapy water before returning to service.

Unusual Fire/Explosion Hazard: Combustible. Above flash point, vapor-air mixtures may be a fire and explosion hazard. Vapors can flow along surfaces to distant ignition source and flash back. Sealed containers may rupture when heated. This material may produce a floating fire hazard. Sensitive to static discharge. May release irritating gases/fumes during thermal decomposition or burning.

Specific Hazards Arising from the Chemical: Not Applicable.

HAZCHEM CODE: 2[Z]

6. ACCIDENTAL RELEASE MEASURES

Personal Precautions: Before cleaning any spill or leak, individuals involved in spill cleanup must wear appropriate Personal Protective Equipment. Avoid inhalation of dust and vapors. Remove all sources of ignition. Ensure adequate ventilation. Use personal protective equipment. See also Section 8.

Methods for Cleaning Up: For small spills (e.g. < 1 gallon (3.785 liters)) wear appropriate personal protective equipment (e.g. goggles, gloves). Maximize ventilation (open doors and windows). Remove spilled material with absorbent material and place into appropriate closed container(s) for disposal. Dispose of properly in accordance with local, state, and federal regulations. Wash all affected areas and outside of container with plenty of warm water and soap. Remove any contaminated clothing and wash thoroughly before reuse.

For spills \geq 1 gallon (3.785 liters), deny entry to all unprotected individuals. Dike and contain spill with inert material (e.g. sand or earth). Transfer liquid to containers for recovery or disposal and solid diking material to separate containers for proper disposal. Remove contaminated clothing promptly and wash affected skin areas with soap and water. Keep spills and cleaning runoffs out of municipal sewers and open bodies of water.

Environmental Precautions: No special environmental precautions required. Local authorities should be advised if significant spillages cannot be contained.

7. HANDLING AND STORAGE

Work & Hygiene Practices: Avoid prolonged or repeated skin contact. Avoid breathing vapors of this product. Use eye protection when using this product. Do not eat, drink, or smoke while handling product.

Handling: Keep container closed. Avoid contact with skin and eyes. Do not breathe dust or vapors. Provide appropriate exhaust ventilation at machinery and at places where vapors can be generated. Do not create a dust cloud by using a brush or compressed air.

Storage: Keep in a dry, cool and well-ventilated place. Keep away from heat and sources of ignition. Keep in properly labeled containers.
